Annexures IV : SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation:

The summary statement of restated assets and liabilities of the Company as at 31st August, 2024, 31st March 2024, 31st March 2023 and 31st March, 2022 and the related summary statement of restated profit and loss and cash flows for the period from 01.04.2024 to 31.08.2024, the year ended 31st March 2024, 31st March 2023 and 31st March, 2022 (collectively referred to as the "Restated summary financial information") have been prepared specifically for the purpose of inclusion in the offer document to be filed by the Company in connection with the proposed Initial Public Offering (hereinafter referred to as 'IPO').

The restated summary financial information has been prepared by applying necessary adjustments to the financial statements ('financial statements') of the Company. The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the accounting standards specified under section 133 of the Companies Act, 2013, of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the Act"), as applicable and Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) regulations 2009, as amended (the "Regulations"). The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistently applied.

a. Use of Estimates

The preparation of the financial statements in conformity with Generally Accepted Accounting Principles requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and the reported amounts of income and expenses during the year. Examples of such estimates include provisions for doubtful debts, income taxes, post-sales customer support and the useful lives of Property Plant and equipment and intangible assets.

(i) Revenue recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured in accordance with AS-9, Revenue Recognition. Sales are recognized on accrual basis, and only after transfer of goods to the customer.

(a) Other Income:

Other items of income and expenditure are recognized on accrual basis and as a going concern basis, and the accounting policies are consistent with the generally accepted accounting policies.

(ii) Property Plant and Equipment including Intangible assets:

Property Plant and Equipments are stated at cost, less accumulated depreciation. Cost includes cost of acquisition including material cost, freight, installation cost, duties and taxes, and other incidental expenses, incurred up to the installation stage, related to such acquisition.

Intangible assets that are acquired by the Company are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortisation and any accumulated impairment loss.

(iv) Depreciation & Amortisation:

The Company has applied the estimated useful lives as specified in Schedule II of the Companies Act, 2013 and calculated the depreciation as per the Straight Line Method (SLM). Depreciation on new assets acquired during the financial year is provided at the rates applicable from the date of acquisition to the end of the financial year. In respect of the assets sold during the financial year, depreciation is provided from the beginning of the financial year till the date of its disposal.

Intangible assets are amortised on a straight-line basis over the estimated useful life as specified in Schedule II of the Companies Act, 2013. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss. In respect of the assets sold during the financial year, amortisation is provided from the beginning of the financial year till the date of its disposal.

The estimated useful lives of assets are as follows:

Category	Useful life
Computer & Laptop	3 years
Furniture & Fittings	10 years
Office Equipment	5 years
Plant & Machinery	15 years
Vehicles	8 years

(v) Impairment of assets:

The Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognised wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. Reversal of impairment loss is recognised immediately as income in the profit and loss account.

(vi) Employee Benefits:

The Company provides for the various benefits plans to the employees. These are categorised into Defined Benefits Plans and Defined Contributions Plans. Defined contribution plans includes the amount paid by the Company towards the liability for the Provident fund to the employee's provident fund organization and Employee State Insurance fund in respect of ESI and defined benefits plans includes the retirement benefits, such as Leave Encashment.

Liabilities for short term employee benefits are measured at an undiscounted amount of the benefits expected to be paid and charged to Statement of Profit & Loss in the financial year in which the related service is rendered.

(vii) Taxes on Income:

Income Tax expense is accounted for in accordance with AS-22 "Accounting for Taxes on Income" for both Current Tax and Deferred Tax stated below:

A. Current Tax:

Provision for current tax is made in accordance with the provisions of the Income Tax Act, 1961.

B. Deferred Tax:

Deferred tax is recognised, subject to the consideration of prudence, as the tax effect of timing difference between the taxable income and accounting income computed for the current accounting year using the tax rates and tax laws that have been enacted or substantially enacted by the balance sheet date.

Deferred tax assets are recognised and carried forward to the extent that there is a reasonable certainty, except arising from unabsorbed depreciation and carried forward losses, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

(viii) Provisions and Contingent Liabilities:

A provision is recognised if, as a result of past event, the Company has a present legal obligation that can be estimated reliably and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by the best estimate of outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is possible obligation or present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

(ix) Earnings Per Share:

Basic Earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

(xi) Operating Leases

Lease where the Lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating lease. Operating lease payments are recognized as an expense in the Profit and Loss Account on a straight-line basis.

(xii) Cash and Cash Equivalents:

Cash and cash equivalents comprise cash and cash deposits with banks. The Company considers all highly liquid investments with an original maturity at a date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents. Other deposits with bank represent investments with an original maturity at a date of purchase between 3 months and 12 months.

(xiii) Foreign Currency Transactions

In preparing financial statements of the Company, transactions in currencies other than the functional currency are recorded at the rate of exchange Prevailing on the date of transaction. At the end of each reporting period, monetary items denominated in foreign currencies are

re-translated at the rates prevailing at the end of reporting period. Non monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in the statement of profit and loss for the period Exchange differences arising on retranslation on non-monetary items carried at fair value are included in statement of profit and loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in other comprehensive income.

(xiv) Inventories
